About me (Bio):

Since 1992, when I was 7 years old, that I have had daily contact with the US English language. It was through leisure that I increasingly consolidated the language in my life, for example, watching series and films, listening to music, playing video games, reading books, having fun with different games. Over time, my mastery of the language allowed me to do things that I had not done before, but that I found pleasure in doing: reviewing scientific documents, translating letters, etc. In this way, I combined business with pleasure and decided to work with the language doing what I like most: translating. Today, I translate in the language pairs EN-US <> PT-BR. I worked with Translation from 2014 to 2020. My clients are found all over the world.

Education:

- *Colégio Santa Marcelina;*
- *Centro Universitário de Belo Horizonte – Uni-BH;*
- MAI English School;

Professional Experiences:

- **Translation** (Self-employed): from August 2014 – March 2020;
