

Dagoberto Cobas

Resumé

"Oh, I can do that you know?"

Education

- 2024–2025 **Nuclear Physics**, *University of Havana*, The Havana, none
Unfinished due to infrastructural problems.
- 2026 **TestDalf**, *Alliance Française*, The Havana, C2
Legal certification for my french level.

Experience

Vocational

- 2025–2025 **Retailer**, *Castifig*, Havana
I was a retail sales executive for a Mypime where I had the chance of learning to handle client complaints and sales skills.
- 2025–2026 **Butler**, *Vapor156*, Havana
One of if not the best hotel boutique. Truly an enriching opportunity where I learned everything hospitality related and improved radically language skills and sales tricks. I had the privilege of doing bartending, tours, and event planning.

Miscellaneous

- 2024–2024 **Tour Guide**, *CubaBuddy*, Havana
Where it all began, I experienced rejection and constructive criticism and guiding to improve and develop social skills and work ethic.

Languages

- | | | |
|---------|--------|--|
| Spanish | Native | <i>As expected from a Cuban born.</i> |
| English | C2 | <i>My first foreign language I learned being an infant from british sources which influenced my current pronunciation.</i> |
| German | C2 | <i>While studying for my former career path as a Nuclear Physicist I learned this language to communicate with the European Community.</i> |
| French | C2 | <i>Probably the language I use the most for personal purposes to communicate with family and study different fields.</i> |

Computer skills

Street G, 11A, Naranjo – Guanabacoa, The Habana – Cuba

1/3

Programming	I programm in C/C++ thanks to studying in University.	Excel	I'm profficient with accounting given I worked in a hotel and sales management.
Web Development	I can work with frameworks and use it for personal extra curricular projects.	Networking	A result of personal curiosity and friends in the sector of telecommunications.
Open Source	Anything from image manipulation to software development only with open source tools.	Linux Systems	I use it on a daily basis so anything from installing free systems to substitute paid services making it accessible and free for everyone. Also servers can be hosted like web pages.

Interests

Learning Languages	Currently studying Russian and Latin for personal pleasure to move in the future to Mandarin Chinese.
Math and Science	I love to sit down early in the morning with a math or physics problem.
Computers	I spend hours in front of a terminal to improve coding skills and learning new computer science skills.
Reading	My favorite literature being the classics speacially in their original language.
Exercise	Running and swimming are my fav physical activities.

Yours faithfully,

Dagoberto Cobas

encl: See you soon...
