

DALIBOR TUCIĆ

EXPERIENCE

2010 - Present

Freelance translator

Throughout the years there's been many topics that I've covered. I've started with spiritual themes, after that came digital trade world translation, some medical trial translations, religious texts and brochures and many more. I worked for publishing houses and translated many books from English to Serbian.

2018 – Present

Pro-Elektro

It's been more than five years since I've started working as a television program translator. Our clients are Discovery and Disney cable TV programs. This has enabled me to come across various material, from something close to reality TV programs (TLC, MTV...), to more technically driven shows, that we can see on Discovery, National Geographic etc. I have access to a lot of technical dictionaries and glossaries, which is why I am able to properly understand and translate topics of various types. So far, there's been approximately 1,500+ hours of my translations broadcasted on TV.

2022 - Present

Mission Translate - Freelance translator
