Phone number: +56998980045

E-mail: benjamin.munoz.pino@gmail.com

Pasaje Los Vilos #0418, Maipú, Santiago, Chile

ACADEMIC HISTORY

Higher education

“Universidad de Santiago de Chile” Computing Engineering
(2013-2017, unfinished).

“Instituto Profesional Chileno Británico de Cultura (IPCBC)”
English – Spanish Translation (2018-2021).

WORKING EXPERIENCE

Freelance translator (since 2018)

Invigilator for Cambridge PET exams (2019).

Usher at LABCI Conference 2019.

Electronics technician at Kolff S.A (2012-2013).

TRANSLATING EXPERIENCE

During my time as a student, I translated texts about different topics, including medicine, mining, gender, literature, psychology, gastronomy, tourism, biofuel, and videogames. Besides, I translated texts about operating systems for my exit exam. I have also volunteered to translate Wikipedia articles.

Some of my most notable works as a translator are the translation of a 7000+ word long paper about biofuels, a 7500+ long paper about operating systems, and a 16000+ word long Wikipedia article about a videogame.

In the IPCBC, I also acquired experience using translation tools, such as Smartcat.

OTHER INFORMATION

I can programme, mostly on Python and C#. In addition, I'm currently learning a third language (Italian) and I plan to learn more languages in the future. I don't have problem working from home, actually I prefer it at the moment.
