Data Science Enthusiast

OBJECTIVE

Dedicated professional with 2 years of experience as an AI evaluator and prompt engineer, seeking a challenging role in the field of artificial intelligence. Proficient in assessing and improving AI models for accuracy and efficiency, as well as engineering prompts to optimize user interactions.

EXPERIENCE

Freelance IT Consultant | Self-Employed

(From: August 2022 - Present)

- Working in Google Bard Evaluation Project to identify and determine the better response among the machine generated responses. By conducting comprehensive assessments based on domain specific guidelines, evaluators contribute to refining the conversational capabilities of Bard and enhancing its ability to provide accurate, engaging, and persona-compliant responses.
- Worked in Amazon Audit Project to Evaluate the effectiveness of translated content in delivering valuable and actionable information to end users.
- Worked in Web Annotation Project to label different data sets as per instruction by maintaining production and quality.

Full Stack Developer Intern | IBM

(From September 2021 – March 2022)

- Assisted in the development of server-side logic using languages such as Node.js.
- Designed and implemented RESTful APIs for seamless communication between the frontend and backend systems.
