About me:

I am a competent Data Scientist with Python/Web developer with less than 1 year of solid work experience with different freelancing platforms like **Upwork, Fiverr, Freelancing**. I am a creative person who is able to produce websites from concept to launch. Having a detailed understanding of best UX principles and SEO best practices, my sites are optimized to load fast, be responsive and be a pleasure to use. I have worked effectively both independently and as part of a team, and I am capable of being highly productive either way.
