Bhubaneswar

DISSERTATION			
Project Title	COVID-19 impact on Indian stock market		
Highlights	<ul style="list-style-type: none"> Conducted research on the impact of COVID-19 on the Indian stock market. Collected monthly data on IIP, CPI inflation, interest rate, exchange rate, and daily NIFTY closing price data from January 2017 to March 2022, and daily COVID outstanding cases from May 2020 to March 2022. Prepared a correlation matrix between daily outstanding COVID cases and daily Nifty closing prices (seasonality adjusted) from May 2020 to March 2022. Calculated changes in outstanding COVID cases and Nifty 50 closing prices. Found that the effect of COVID-19 on the stock market was temporary. Explored correlations between variables in the study. 		
POSITIONS OF RESPONSIBILITY			
Department Secretary	School of Economics		May 2021 - April 2022
Roles & Responsibilities	<ul style="list-style-type: none"> Planned and executed the School of Economics Branch's main events, including Present-O-Nomica, Debate Competition, Declamation Competition, Quiz Competition, etc. Managed & supervised a team of 16 students.
