## FOR TRANSCRIPTION, CAPTIONING & SUBTITLE WORK

### Cover Letter

Hi, I am Preeti.

I am a language enthusiast, and the perfectionist in me makes sure that every sentence I read is accurate, error-free and well formatted.

I enjoy working on words, grammar, punctuation, and everything about language.”

I have worked as a transcriptionist on Rev for more than two years. I’ve worked on a total of 122 files and scored a rating of 5/5 in formatting and 4.6/5 in accuracy.

Being a detail-oriented person with deep listening skills, I find it easy to decipher the content of a video and audio file and work on it.

I can do transcription and create captions for files in the **English language** efficiently. I can also create subtitles in the English language for videos in **the Hindi language**.

I believe I can do well in this. I’ve linked some of my sample work below.

You can check out my work, and if you like it, let's connect.

I would like to join your team and work with you.

I'm also open to doing a free sample work to see if we are the right fit.

Thank you for your time,  
Preeti
