Upon request, I can send my resumé or a reference letter for each one of the translation agencies listed above

** About the Brazilian Portuguese as a target language: I have been lived and worked for seven years in Brazil and my Brazilian Portuguese is very, very fluent. And there's more: if Brazilian Portuguese is the target language, I have my work checked and completely proofread by a Portuguese native speaker: a very important factor to guarantee a native speaker standard. I have made a lot of translation from Italian and English into Portuguese without complaints.*
